# Displacement and activities to provide humanitarian relief

Over the past two decades the Tamil people in Sri Lanka have been affected by the war and violence unleashed by the SLA and its paramilitary groups. In December 2004 the civilians were affected by Tsunami which caused unprecedented deaths and destruction. The violence of war increased in December 2005 after the new President was elected in November 2005.

UNHCR and local authorities report that the number of recently displaced IDPs (past 18 months) in Kilinochchi, Mullaitivu and Vadamarachchi East is 22,903 families (86,154 persons). These IDPs have been displaced due multi-barrel artillery shelling, aerial bombardment, DPU attacks and military offensives by the SL army.

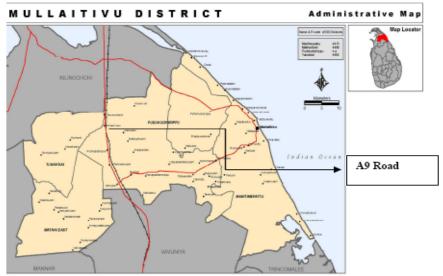

The IDPs are currently being assisted by international NGOs, UN Organizations and local NGOs. Some areas are not covered by international NGOs due to their own security restrictions.

TRO, along with its partner organizations, are on the ground to provide the essential needs of the IDPs: drinking water, food, clothing, shelter and transportation to safer areas.

# Kilinochchi District

The people of Kilinochchi were displaced in 1996 by the SLA operation, "Sathjeya Operation", and as a result displacement they lost everything. The IDPs resettled after 2000. After returning they engaged in farming and other income generation activities. Now the IDP population has increased due to the recent arrival of displaced people from Jaffna, Mannar, Batticaloa, Trincomalee and Vavuniya after there was a dramatic increase in the military activity beginning in April 2006.

# Vadamarachchi East (Jaffna District)

3,551 families returned to Vadamarachchi East and started their living in their places of origin after the Cease Fire Agreement (CFA) was signed between the GOSL and the LTTE in 2002.

All of the families were engaged in fishing as their livelihood. These families were displaced again on 11 August 2006 by SLA troop movements that breached the Forward Defense Lines (FDLs), and due to shelling, air strikes and naval attacks by the Sri Lankan security forces.

Currently, 491 families living at Chundikulam Coastal area suffer without proper accommodation, transportation to hospital and a scarcity of drinking water.

A TRO team traveled from the TRO Head Office in Kilinochchi to conduct needs assessments with the IDPs at Chundikulam. The team identified the following immediate needs:

- 1. Temporary Shelter
- 2. Water & Sanitation (wells & toilets)
- 3. Renovation of roads
- 4. Temporary preschool
- 5. Temporary school hall

TRO began the work to renovate the road with the support of the local IDPs on 20 June 2007. The total length of the road length from Kervil to Nallathannithoduvai is 18 km. Currently 5 Km of road work has been completed.

#### Children Home activities in Vanni

The past two decades of war and the tsunami have created numerous orphaned children who also lost their access to education. There are also children who have natural disabilities or children who have been abandoned by their families. All of these children are being cared for in TRO managed Childrens' Homes.

These Homes were running in good condition before the current situation developed in the Vanni. Currently, the Homes face numerous difficulties, not only in the education sector but also due to the acute shortage of food as a result of the restrictions on the transportation of food and medicine via the A9 road by the Defense Ministry in Sri Lanka.

TRO runs the following Children's Homes in the Vanni:

Kurukulam 507 children Gandhi Nillaiyam 160 boys Barathy Illam 170 girls Punithapoomi 131 boys

Iniyavalvu Illam 98 differently abled boys & girls

The home's staff and children have been engaged in home gardening in order to meet their dietary needs.
